

2004 Summer Prop Initiative Proper Work Place Exams Identify Hazards

Best Practices

- **Conduct frequent and diligent work place examinations.**
- **Identify and correct hazardous conditions.**
- **Scale all loose roof and rib prior to starting all tasks.**
- **Communicate changing conditions with your crew and next scheduled shift.**

MSHA

**Helping you to work
more safely in the
mining industry.**

REMEMBER

**Safety and
Health are
Values!**
